CAMPION IN **DANGEROUS** CONDITION

J. D. Campion, the telegraph oper ator from Rock Springs who jumped from the car window of an incoming Union Pacific train in the Ogden yards, Thursday morning, and who has been confined in the woman's ward at the county jail for a day or two receiving treatment for nervous trouble from County Physician Pidcock, attempted suicide about 12 o'clock Friday, by shashing his wrist viciously with a penknife he had concealed in his clothing. He was caught in the act by Deputy Sheriff Murphy, who was on watch at the jail, and prevented from further injuring himself until Dr. Pidcock arrived and placed the man under the influence of chloroform until

Campion admitted that he had attempted to sever the artery and bleed to death in order to escape his enemies, whom he believes are trying to capture and take him to Mexico. On all other save this the man seems rational, but he is now considered at east dangerous to himself.

It was learned yesterday that Camplon's father and brother reside at Rosalie, Washington, where latter is employed as a station agent on the Northern Pacific road, and his brother holds a clerical position in the same station. They have been in-formed of the prisoner's condition and will probably come to Ogden after him Otherwise the man will probably be sent to Provo for treatment.

Campion was formerly in the employ of a railroad at Phoenix, Arizona where his wife now resides, and it is thought domestic troubles and possibly drink, are responsible for his present condition.

POLICE TO BREAK UP EXPECTOR-ATING GANGS

Women Complain That Oglers Are Offensive and That Often Their Language Is Indecent.

"Gentlemen will not, and others are requested not, to expectorate upon the sidewalks of the city of Ogden." This ias long been an ordinance but for one reason and another the same has not been strictly enforced for a considerable length of time. Chief of Police Browning stated yesterday that he was going to make it his spec-ial task to see that the patrolmen on their various beats about the business streets enforced this ordinance from now on.

A similar effort will likewise be made to prevent crowds of loaters from congregating in front of the numerous cigar stores and the saloons. Innumerable complaints have come to headquarters from ladies who resent, in passing by, the admiring glances of congregated idlers. The ladies also object to the bolsterous and often profane and indecent language which fre-

quently greets their ears. A complaint was made recently by the neighbors of a certain cigar store in the city, who stated that the loud talk and constant presence of numer-ous smoking, swearing, tobacco-chewing idlers about the place, was a pos-itive nuisance and menaced their own

When the complaint was investigated by the officers, the proprietor of the cigar store stated that he could not well avoid the conditions which were complained of and that he would appreciate some endeavor on the part of the police to assist in curbing the

nuisance. Chief Browning states that he is more than glad to come to the gentleman's assistance and has already issued orders to the police that more attention be paid to the place men-tioned as well as all other places where crowds of boys and men gather to discuss the latest in prize fights, comment on the "merry widow" hats and directoire gowns which pass, and assist in reducing with all speed the stocks of tobacco and

John Doe, who officiates in the capacity of care-taker of a local temple of religious worship, finished his various tasks Friday afternoon and then proceeded to get gloriously full of Ogden's bad whiskey. John had one of those "unquenchable thirsts." which arise within his anatomy from time to time which knows no master but John Barleycorn. The struggle of Friday proved no exceptional strife and no untoward incidents are related of the occurrence beyond the appearance of John's "sky pilot" at po lice headquarters yesterday, bearing the shekels which brought ty for the erring house man and tears of repentance from the latter's eyes as he vowed his future intentions.

HARP WILL BE HEARD AT PRESBYTERIAN CHURCH

In the old days of the bards of the British isles the harp was held in so great reverence that it was an unwritten law of the land that no slave should ever be permitted to touch one.

The harp was the freeman's instru ment. It was the law of ancient Wales that no harp could be taken from its owner for debt. The harp was the one piece of property which was thus

exempt.
In order that another opportunity may be given to the music lovers of Ogden to hear the best harp music rendered in a skillful manner, ar-rangements have been made with Mrs. Frances H. Wade to give a number of selections of the best harp music Sunday evening at the First Presbyterian church. The selections to be given are from the best composers for the harp and cover a range of harp music which will reveal fully the wonderful melody of that ancient and classic instrument. The harp was for ages the leading instrument for the rendering of sacred music and it was a leading factor in the Hebrew Temple music and in the rendition of the psalms of David. The Welsh Scotch and Irish peoples especially loved it and in each of these nations it was closely associated with their national life.

The music for this evening has been chosen with a view to bringing out the melody of the old sacred antiting the pipe." The arresting officers were not present and the case was phonal measures to which the psaims of David were sung, as well as the choral and martial strains of the Celt and Kelt of more recent times.

Mrs. Wade will render the following

Prelude, "Andante," (Greig), Miss
